GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

De Lesseps' Movements.

NEW YORK, Aug. 31.—The *Bulletin* says: Our private information confirms a cable dispatch announcing the definite formation of De Lesseps' canal company imminent. It is probable, moreover that the syndicate will embrace the support of banking houses in this city and San Francisco. The bankers appear to have concluded that the president of De Lesseps as the successful promoter of the Suez canal will insure sufficient subscriptions for the first issue of about 500,000,000 francs. There is good reason to believe that the Panama canal stock will be placed on the market by a syndicate of American bankers in a few days who will act under the protection of the American government.

Voluntary Starvation.

NEW YORK, Aug. 31.—A citizen of Grand Rapids, Michigan, thinking he had cancer of the stomach, abstained from food 65 days and died of starvation. A post mortem examination showed his brain to be the only diseased part of his body.

Gossip about the Grants

GALENA, Aug. 30.—Gen. Grant positively asserts that he has refused positively the presidency of the LasVegas Mining Co., which was recently tendered to him. Jesse R. Grant, of New York, is here for three or four days and does not deny that he is shortly to marry the daughter of a wealthy San Francisco man, and will start west soon.

Death of the Hon. Robert McClelland.

DETROIT, Aug. 31.—Hon. Robert McClelland died at 10 minutes past 10 this evening, having never recovered consciousness since his attack Saturday afternoon. This death leaves but two of President Pierce's cabinet still living—his postmaster general, Judge Campbell, of Philadelphia, and Jeff Davis his secretary of war.

Death of Dr. Wm. Adams.

ORANGE, N. J., Aug. 31.—Rev. Dr. Wm. Adams, LL. D., president of the Union Theological Seminary of New York, died this morning.

Suicide of a Methodist Minister.

PHILADELPHIA, Aug. 31.—Rev. D. K. DeHoggs, a Methodist minister of Cinnaminson, N. J., and publisher of the *Christian Herald* at that place, jumped from a ferry boat while crossing from Camden to Philadelphia at 12 o'clock last night and was drowned. He left a packet in which was a letter addressed to G. B. Lloyd, of Cinnaminson.

Work Resumed.

SCRANTON, Pa., Aug. 31.—All coal mines in this region have resumed work on full time.

Coming Home.

NEW YORK, Aug. 31.—Victorious turners of Milwaukee, who took a large number of prizes in Europe over all European turners, are on the ship *Hoedon*, expected to-day. A grand reception will be tendered them.

Riflemen for the East.

CHICAGO, Aug. 31.—There arrived in the city this morning, by the Chicago, Rock Island and Pacific railway, the Creedmoor rifle team of the regular army, destined east to test their skill as marksmen.

Report from the N. P. R. R. Grain Belt.

CHICAGO, Aug. 30.—A careful examination of the condition of the wheat crop in the great wheat belt on the line of the Northern Pacific railroad has been made for the associated press, and it can be stated that the reports of its being in danger in consequence of wet weather are unwarranted. The late spring delayed seeding and harvest fully two weeks, and the last week of cloudy weather along the line has interfered with threshing; but the crop is safe, and with favorable weather will begin moving largely this week—fully three weeks later, however, than last year. The Dalrymple farm alone will require 35 cars a day to take care of the grain as it is threshed.

The construction force engaged on the extension of the Northern Pacific railroad west of the Missouri will complete the grading to the Yellowstone early in October. The president of the road has directed the chief engineer to transfer the working force directly across the located line of the Yellowstone division with the intent to reach and pass Miles City and Fort Keogh next July.

The Middle West Wheat Yield.

A St. Paul correspondent of the *Times* claims 40,000,000 bushels of wheat as the yield of Minnesota this year. He says: This is several millions more bushels than have ever been returned in a single year in a state where an exact system of returns and statistics prevail. California, which up to this time has been the heaviest wheat producing state grew 30,000,000 bushels last year to Minnesota's 31,000,000. The average in California has not increased as it has here, and though San Francisco papers claim a large increase through the heavier yield of fields, it is hardly likely that the whole amount will exceed what was grown in Minnesota and Dakota.

Grain Shipments from Buffalo.

BUFFALO, Aug. 31.—The total grain receipts for August exceed the largest movement of any preceding or corresponding period, by over 25,000,000 bushels, and are very nearly equal to the entire shipments for the season of 1879, while gains in shipments by canal for the season, foot up nearly 20,000,000 bushels, and show an increase of total revenues of $169,713, and clearances of boats 2360 over the season of 1879.

Kansas Has a Round Million.

TOPEKA, Ks. Aug. 30.—The U. S. census supervisor gives the following as the population of the state, according to returns of district enumerators: First district, 259,336; second, 335,620; third, 404,344; total of state, 996,300, and the population is now undoubtedly a round million.

More about the Plattsmouth Bridge.

PLATTSMOUTH, Neb. Aug. 31.—For more than a year the Chicago, Burlington & Quincy railroad has been building a railroad bridge over the Missouri river, a few miles below this point, the object being to have a crossing independent of the toll bridge at Omaha. The structure was tested to-day in the most thorough manner, four hundred tons weight of locomotives going over each span. The bridge stood the test easily. There is no draw in it, but its centre span rises to such a height that steamers readily pass beneath. It is made of steel. The inspecting party was composed of about sixty prominent railroad engineers and railroad officials from different sections of the country, and a considerable number of journalists. All these gentlemen express themselves thoroughly satisfied with the test. This new departure in railroading is regarded as highly important in this part of the country, as it may lead to results beneficial to the public.

Movement for the Protection of Trees.

BOSTON, Aug. 30.—The American Association for the Advancement of Science have met here in general session. A number of new members were elected, and Cincinnati selected as the place for the next meeting. The committee to memorialize congress and state legislatures regarding the cultivation of timber, recommended a law protecting trees planted along highways, and the encouragement of such plantations by relieving them from highway taxes, and exempting from taxation of the increased value of land from the planting of trees where none were growing, for a period that may be designated, or until profit may be realized from such plantation; also, by the appropriation of money to agricultural and horticultural societies to be applied as a premium for their planting, and for prizes for the best essays and reports on subjects of practical forest culture, and by encouraging educational institutions to introduce a course of instruction having reference to practical sylvaculture by laws tending to prevent forest fires, by imposing penalties against willful or careless setting of fires, and enlarging and defining the powers of local officers in calling for assistance and in adopting measures for suppressing them, by establishing, under favorable circumstances model plantations, and by the appointment of a commissioner of forestry, under state authority, analogous to the commission of fisheries. A committee, was appointed to memorialize congress to bring about co-operation on the subject.

"Fritz" Emmett in a Bad Light.

NEW YORK, Aug. 31.—On application of the wife and son of Joseph K. Emmett, "Fritz," a warrant has been issued for his arrest on a charge of being a habitual drunkard and neglecting to properly care for his family, and in order that he may be confined for a short time in some institution to correct his habits.

A Serious Charge.

Ten persons have been arrested in Covington county, Alabama, charged with beating and intimidating U. S. witnesses, and destroying processes from U. S. courts.

Damaging Flood in Richmond.

RICHMOND Va, Aug. 31.—This city was visited last night by one of the fiercest storms ever known in this section. For two hours rain fell in torrents, accompanied by almost incessant thunder and lightning. The rush of water in the streets is so great that Shocks creek in the lower part of the city, was swollen to an angry torrent which overflowed its banks, and flooded the whole vicinity. Many cellars were filled, and buildings bordering on the creek inundated. The occupants, mostly colored, were awakened by the rush of water into their houses. The scene in the neighborhood of the swollen stream was terrible.

Women and children were at the windows holding lamps and screaming for help. The night was pitch dark and often cries were heard from points where no one could be seen. Men waded about in the water saving the lives of members of their families while their property was being washed away. Merchants also sustained considerable loss by the flooding of cellars in other parts of the city. The streets were badly washed and several bridges in the suburbs were swept away. Lightning struck in several places, but no serious damage was done. No loss of life is yet reported.

Personal.

CLEVELAND, Aug. 31.—President Hayes and wife and Gen. Garfield and wife arrived this afternoon, and went to Canton, Ohio, to be present at a grand soldiers' reunion there to-morrow.

Preparing for Trouble.

NEW YORK, Aug. 31.—Equipment will be ordered to-morrow of the forty-two life-saving stations along the New Jersey coast, a month earlier than usual, because of the prediction of unusually heavy gales. Two hundred and fifty-two men compose the life saving patrol.

Chicago Clearing House Statement.

CHICAGO, Aug. 31.—The *Inter Ocean* reports the returns of the Chicago clearing house for August at $137,000,000, against $96,000,000 for the corresponding month of last year. This shows an increase of 42 per cent. Clearings for the first eight months of the year are reported to be $1,053,000,000, against $738,000,000 for the same period in 1879, showing an increase of 43 per cent.

New York City Debt Statement.

NEW YORK, Aug. 31.—Comptroller Kelly's annual statement shows a decrease in the city debt for the past year of $3,430,385.

Mystic Park Races

BOSTON, Aug. 31.—At the races at Mystic Park, for the 2:50 class, Nasby won; Kelso, 2d; best time, 2:27. For the 2:22 class, purse $1000, won by Parana in three straight heats; Kuma B. 2d; best time, 2:22½. For the 2:19 class, $1000, divided, won by Wedgewood; Driver, 2d; Sheridan, 3d; best time, 2:20½.

WASHINGTON CITY.

Mint Vaults to be Built.

Supervising Architect Hill said to-day that the unexpended balance—some $6000 or $7000—of the $23,000 appropriated last session for the construction of additional silver vaults remaining after the erection of a vault in the Philadelphia and one in the San Francisco mint, would be applied to the construction of a third at some other point—perhaps at the New York sub-treasury.

Coinage Work at Philadelphia.

WASHINGTON, Aug. 30.—Gold that is being sent to the mint from New York will probably not be coined for some time to any great extent owing to the fact that there is so little demand for it. It is assayed and U. S. coin is paid for it. For the present most of it will be simply stored. Eventually all this foreign coin now arriving will be melted and recoined into eagles and half eagles. Now, the most that is being done at Philadelphia is to make standard dollars. The amount of gold coined monthly is greater than silver, but the number of pieces is very much less.

A Remarkable Fraud.

Chief Brooks, of the secret service, received information to-day of a new scheme for swindling in vogue in Mississippi. Some ingenious rascals have made photographs of greenbacks and circulated them in back counties among ignorant people as new style of government checks. They discounted them, and then the parties who took them circulated them a while until they found their way into a local bank, the fraud not being detected. They sent over $19,000 worth to the treasury for redemption, where the fraud was instantly discovered.

Railroad Mail Service in the Southwest.

WASHINGTON, Aug. 31.—Transportation of mails has been ordered over the recently completed portion of the Southern Pacific railway from Yuma, Arizona, to Benson, Arizona, nearly 300 miles. This completes the continuous route of mail transportation by rail from San Francisco through the entire length of California and nearly across the southern portion of Arizona, a distance of over 1000 miles. Transportation of mails over the Arizona end of the route begins Sept. 20th, and will be the first railroad mail service ever performed in the territory.

Public Debt Statement.

It is stated that the receipts for August will aggregate $30,500,000; expenses, $16,500,000, exclusive of interest on the public debt, which is light. The acting secretary of the treasury estimates the decrease in the debt for August to be over $11,500,000.

The first and second volumes of the official records of the late war, are in hands of printers.

INDIAN AFFAIRS.

News of Ouray's Death Confirmed.

WASHINGTON, Aug. 31.—Acting Secretary Bell, of the interior department, received a dispatch last evening from Mr. Moneypenny, chairman of the Ute commission, dated "Southern Ute Agency, August 28th," which confirms the published report, of Chief Ouray's death. Up to the receipt of this telegram, which it will be observed was six days on the way, Bell was inclined to discredit the report of Ouray's death. The dispatch says: "Ouray died this morning. The commission fear that this may embarrass their work. Held a full council yesterday, but no Indians signed the treaty. Ignato and other chiefs opposed it."

Ouray Possibly not Dead.

The interior department has slight hopes that Ouray is not dead after all, as it received no confirmation to-day.

The Ute Crisis Passed.

WASHINGTON, Aug. 31.—A dispatch from Col. Meacham of the Ute commission, dated Los Pinos, 28th, states that the crisis in Ute affairs has passed. Seventy Uncompahgre and White river head men and chiefs, have placed their bands under the direction of the agent. They have accepted Sapavanari as chief and have agreed to preserve Ouray's property intact and to proceed immediately to complete ratification and enrollment. You need have no fears. Agent Berry is equal to the emergency and has the confidence of the Utes at Los Pinos and White river. They are anxious for peace.

Successor to Ouray Elected

LOS PINOS, Aug. 29.—A grand council yesterday elected Sapavanari as Ouray's successor. He had the confidence of Ouray to whom, however, he was inferior. The Utes killed five of Ouray's best horses to accompany him to the happy hunting grounds.

Indian Outbreak in the Southwest.

LAKE CITY Aug. 31.—Geo. Atwood arrived in Ouray last night. He reports an Indian outbreak in Grand valley in which the Southern and White river Utes, Piutes and Navajoes are concerned. On the 26th inst. they attacked three of the Wilson boys, cattle herders, 130 miles west of Ouray and six miles inside the Utah line, and two of the boys were killed, the other making his escape with a wounded foot. The inhabitants of Grand valley, Paradise and Blue Mountain have massed at Sierra Lasal to avoid further outbreaks by raiders.

Victorio wants to Treat.

SANTA FE, Aug. 31.—Advices are received from the south that a few scattered bands of Apaches are raiding ranches about sixty miles from El Paso. It is reported that Victorio's main band is still in the Cordelaria mountains, Mexico. Advices state that Victoria has requested of the Mexican government a meeting for treaty purposes with conditional surrender in view. The Mexican government would not grant it without consulting the U. S. government. This move of Victorio indicates that the forces of New Mexico and Texas combined, are too much for him, and knowing that the United States will accept nothing but an unconditional surrender which would likely result in his death, he wishes to make a conditional surrender to the Mexican government, which cannot likely be accomplished, as Gov. Terrasasas, who will have much influence in the matter, is a heavy loser by Victorio's raids.

POLITICAL.

Prospects for a Grand Republican Victory in Maine.

CHICAGO, Aug. 31.—The *Tribune's* Maine advices say: From all parts of the state come most cheering reports. The interest of temperance, engineered and carried on by democratic capital and for democratic ends, has resulted in sinking its movers in disgrace, stirring up more earnest and profound feeling among honest temperance men for the support of the republican cause. The announcement of Mr. Gove, fusion ex secretary of state, is having a powerful effect upon republican greenbackers. His voice rings like a trumpet over the state, calling upon greenbackers to beware of the democracy and rally to the republican standard. The quiet but sure work among voters is producing grand results. The present week will be one of unparalleled effort in the state, as voters begin to realize that the election will sound the keynote of the national struggle.

The Maine Campaign.

Another letter was received from Commissioner Raum to-day. He reiterates his belief that Maine will go over 5000 republican. It is understood that the reason the democrats dropped the fight in that state is that they are short of money and did not propose to waste any in doubtful fields.

Political Straws.

NEW YORK, Aug. 31.—The *Herald* concedes Maine to the republicans and forecasts an undiminished republican majority in Vermont. It adds: "If the fame and loyalty of Hancock capture no republican votes in Vermont, there will be little to fear on that score in other states."

The *Times* announces the conversion to republicanism in Vermont of Hon. Smith Eyes, a life long, wealthy and influential democrat, who has large capital invested in mining interests and whose monthly pay roll embraces over 11,000 men.

Trying to Smooth Things Over in New York.

NEW YORK, Aug. 30.—Irving hall this afternoon sent to Tammany hall a series of resolutions looking to and proposing a conference to adjust differences existing. The communication was responded to by Tammany, who appointed a committee of eleven to confer with a similar one from Irving hall Wednesday evening.

Tammany Makes a Concession.

NEW YORK, Aug. 31.—For the purpose of uniting, harmonizing and consolidating the democracy, the Kelly state committee, chosen at Shakespeare Hall, Syracuse, on the 20th of April, revokes its call for a state convention, and ratifies the call of the Faulkner state committee for a convention at Saratoga Springs on the 28th of September.

Secretary Sherman Opens the Campaign.

CINCINNATI, Aug. 30.—John Sherman, secretary of the treasury, delivered his first speech in the campaign at Pike's Opera House to-night. Major A. T. Goshorn presided. The opera house was profusely and most tastefully decorated with flags and flowers, and was crowded with people long before speaking began. The secretary was enthusiastically greeted when he was introduced.

Why Arthur was Removed from the N. Y. Collectorship.

CINCINNATI, Aug. 31.—In reply to a question by one of the audience at his speech last night, as to the cause of the removal of Gen. Arthur as collector of customs, Sherman said: "I have never said one word impugning Gen. Arthur's honor or integrity as a man and a gentleman; but he was not in harmony with the views of the administration in the management of the custom house."

The Sand Lot Crowd for Hancock.

NEW YORK, Aug. 31.—The *Express* prints an interview with A. B. Doble, of San Francisco, who declares that California will give her electoral votes for Hancock. Two thirds of the ward presidents of the workingmen's clubs have declared for him. Kearny has now no following. Three fifths of the workingmen in the state are democrats.

Gen. Devens on the Stump.

Attorney General Devens is on the way to Canton, Ohio, to attend a soldiers' reunion to-morrow. At Muncie, Indiana, he will deliver his first political address on September 3. He also speaks at Indianapolis on the 4th and at South Bend on the 6th. He will visit the Minnesota state fair at Minneapolis on the 8th and expects to return to Washington on the 12th.

Nebraska Republican Convention—A New Lease all Round.

OMAHA, Aug. 31.—The Nebraska state republican convention meets at Lincoln to-morrow to nominate a full state ticket and member of congress. Most of the delegates went to Lincoln to-day from various portions of the state. Governor Vance, the present incumbent, will be nominated for governor again without doubt; also Lieut. Gov. Carner and the rest of the state officials, in all probability, with the exception of State Auditor Leidtke, who at present is under a cloud. Hon. E. K. Valentine, present member of congress, will very likely be nominated, as he has given satisfaction and no candidate of any prominence has been mentioned as opposed to him. It is safe to say that the convention will pass off harmoniously. The convention opens at 3 o'clock to-morrow forenoon, and it is not likely that more than a temporary organization will be accomplished the first day.

CRIMINAL MATTERS.

An Old Man Murdered by his Nephew.

DETROIT, Mich., Aug. 21.—John Hamilton, a wealthy farmer of Ionia, was shot and instantly killed by his nephew last night. Hamilton was 76 years old, and Wm. H. McKenny, his assailant, is but 18. His father is wealthy, and resides in Brooklyn, New York. The boy wanted to become a farmer, and his father brought him west to spend the summer at his uncle's. He remained there till a few weeks ago, when he became dissatisfied and went to a neighboring village to work in a mill. At his settlement with Hamilton the sum of $18 was due, and procuring a livery rig last evening, he drove to the farm. Hamilton being at home, he demanded the money. His uncle told him that his son would settle as soon as he threshed his grain. This did not satisfy McKenny, who became abusive and threatened to attach the wheat. Hot words ensued, and Hamilton ordered him out of the house, and started to put him out, when McKenny drew a revolver and shot twice, the second passing through Hamilton's heart, causing death in a few minutes. McKenny gave himself up to the officials, and is now in jail.

Outrageous Murder.

DENVER, Aug. 30.—Jas. Bennett, of Troy, fireman of the engine on the Denver and Rio Grande railroad, was shot and killed this evening at San Antonio station by a party of drunken men while Bennett was in the cab firing thirty shots. Capt. Spoone, Jas. Cazon and Jas. Nichols were arrested and are now in jail at Conejos. The railroad men have organized for protection, and lynching is feared.

A Bridegroom Murdered.

A *Tribune* special says: John Mullens of Silver married a daughter of Moccasin Bill last Wednesday. He was shot from the bush and instantly killed yesterday. No clue to the murderer.

CANADA.

Smallpox among Northern Indians.

OTTAWA, Aug. 31.—A gentleman from the upper Gatineau reports over 100 deaths among the Indians from small pox. Several bands have divided up into small parties and are traveling north, leaving their dead unburied.

The Case in a Nutshell.

[From the Boston Transcript.]

The experience of the greenbackers who have been stumping the south is invaluable, as these men went to that region strong in the belief of the subsidence of all the passions connected with the great "unpleasantness." They found to their sore disappointment, that the sole electioneering capital of southern democracy is drawn from the war feeling latent in the states composing the old confederacy. They have also found that free speech would not be tolerated wherever its effects could not be counterbalanced by the most shameless count-ing-out. The greenback stumpers have only to tell their story throughout the north to make it as solid for decency and right as the south is politically solid for the party through which it expects to resume its ascendency in the nation's councils.

BY ATLANTIC CABLE.

Irish Legislation.

LONDON, Aug. 31.—In the house of commons to-night debate on the constabulary vote was resumed. Parnell asked if Forster, in the event of landlords continuing to abuse their power, would advise summoning parliament during recess to pass a law protecting tenants. Mr. Forster did not expect that it would be necessary.

The vote by which the house of commons passed the Irish constabulary bill last night was 105 to 20, the government's majority 70. Two Englishmen, Joseph, member for Newcastle-on-Tyne, and Charles Bradlaugh, member for Northampton, both radicals, voted in the minority. About twenty conservatives supported the government. No attempt was made at obstruction.

The Employers Bill.

LONDON, Aug. 31.—The house of lords this evening passed the employers' liability bill as amended in that body. A motion to reinstate a section entitling claims to be preferred against an employer in case of injury caused by negligence on the part of any person in the service of such employe, was negatived without division. The savings banks bill was read the second time.

The Expected Heir.

MADRID, Aug. 30.—On the occasion of the birth of the expected heir to the throne, the government will grant amnesty to Cuban insurgent leaders now imprisoned in Spain.

The Persecuted Jesuits.

PARIS, Aug. 31.—Newspapers announce that the police will to-day visit Jesuit scholastic institutions throughout France to execute the decrees against unauthorized congregations. At a Jesuit establishment at Dijon yesterday the police found only one regular priest, who is now director of the establishment, and one Jesuit, representing the society in its civil capacity as proprietor of the building. It is believed that the police will find all establishments of the society similarly evacuated.

The French Schools.

PARIS, Aug. 31.—Three large Jesuit schools in Paris have been entirely evacuated, and the authorities have walled up the doors of the establishments. New civil directors have already been installed in the vacant posts. It is rumored that the government and various unauthorized religious confraternities have agreed upon the terms of a letter which is to take the place of a demand for the authorization hitherto required by law. By this letter the heads of schools will bind themselves to hold aloof from political questions and not to take an attitude of hostility towards the present order of things.

A Proposed Jesuit Mission.

ROME, Aug. 31.—The pope has assented to the proposal that a portion of the French jesuits should form a society for propagation of the faith in central Africa.

German Affairs.

BERLIN, Aug. 31.—Twenty-eight members of the reichstag and landtag have published a declaration announcing their secession from the national liberal party. They declare it to be their intention to uphold political liberties already achieved and to combat oppressive and indirect taxes. They also insist upon religious freedom being guaranteed by legislation.

Official Visit.

BERLIN, Aug. 31.—Bismarck went to Potsdam yesterday and visited the prince and princess of Bulgaria, who returned the visit at Berlin to-day, remaining some time at the residence of the chancellor.

Roumania.

BERLIN, Aug 31.—Prince Bismarck and the prince of Roumania, have discussed the advisability of making Roumania a kingdom. Germany favors this step.

The Proposed Demonstration.

CONSTANTINOPLE, Aug. 31.—Albanian chiefs declare that when the ships appear Albanians will enter Montenegro and retake Dulcigno. Riza Pasha, the Turkish commander, reports the state of affairs to be very critical and Albanians much excited. Riza Pasha's house is guarded by 1500 soldiers.

A correspondent writes that the Albanians are arriving in Dulcigno in small numbers. About 2500 are now there. He believes that the powers will have to land troops to make a settlement.

CONSTANTINOPLE, Aug. 30.—The European powers will not invite Turkey to participate in the proposed demonstrations.

The Greek Navy.

VIENNA, Aug. 31.—On the return of the king of Greece to Athens, the Greek navy will be placed on a war footing.

Servia and Bulgaria.

PHILLIPPOPOLIS, Aug. 30.—It is declared in well informed circles that the announcement of the conclusion of an offensive and defensive alliance between Servia and Bulgaria is unfounded.

Skobeloff's Force.

ST. PETERSBURG, Aug. 31.—It is confidently stated that Gen. Skobeloff has only 2500 men. It may be presumed that offensive operations on a large scale are not likely for some time.

The Candahar Siege Practically Raised.

The British political officer at Candahar, telegraphs that the country is quieting down. Ayoob's force is reduced to regulars and a small number of Ghazis. It is reported that he wishes to retreat to Garaf and Girishk, but is prevented by Cabul troops. The siege is practically raised. A large quantity of food was brought in yesterday.

LONDON, Aug. 31.—The viceroy of India, in a telegram, states that tribal gatherings threaten the communication of Gen. Phayre.

Steamer Disabled.

LONDON, Aug. 31.—The steamer *Virago* from New York, July 31, for Hull, has put into Portland; machinery disabled.

That Wicked Returning Board.

[From Harper's Weekly.

The democrats have denounced the Louisiana returning board as the most iniquitous of institutions, a mere device for monstrous fraud, unconstitutional and wicked. There are a great many persons who have been persuaded by democratic declaration that the Louisiana returning board was the means of defrauding the country of a rightful result at the last election. But the democrats have been in complete possession of Louisiana for three years. They have, of course, repealed this wicked law? Far from it. They were in power in the state in 1872, and they made the law more stringent. They are in power now, and the law is unrepealed. Like many laws passed to protect the oppressed, it may be enforced so as to increase oppression. The Louisiana returning board was a republican device to protect bulldozed districts. It will now be used by democrats to annul republican majorities. The virtuous horror affected by democrats was a campaign trick. The democratic returning board will do its share in making the south "solid" by throwing out republican majorities wherever they shall seem to throw doubt upon the result. We shall hear no more from democrats of the appalling wickedness of the returning board.

Fir Lands.

[From the Rural Spirit.]

In western Oregon and Washington much of the lands, and particularly those that are now vacant and rated as cheap lands, is fir land—that is, fir is the natural growth of timber upon its surface. As we are very frequently in quest of as to their value, we, without giving a name, mention the fact that in this county one of our subscribers informs us that he has this season harvested over 30 bushels of the finest wheat he ever saw from each acre on his farm; and that he got nearly three tons of clover from every acre. The land referred to has been in cultivation several years, and has never had other fertilizer except a half barrel of gypsum (land plaster) to the acre about every other year. There are millions of acres of this kind of land west of the Cascade range now subject to pre-emption and homestead, and the same amount that can be bought for from $2.50 to $10 per acre.

The Public Credit and the Democratic Party.

[From the New York Tribune.]

Now that it seeks the confidence and votes of the people, the democratic party claims to be the champion of specie payments. The old proverb that liars should have long memories might well be amended so as to read liars and democrats. Mr. Blaine, who is always sure of his facts, shows in his Bath speech that the three important acts which brought us to sound currency,—the public credit act of 1869, the funding act of 1870, and the resumption act of 1875—were all resisted by the entire democratic party in congress. He shows also that Mr. Bayard and Mr. Thurman, the two democratic leaders who have been most conservative on the financial question, supported a bill that would have paid off the debt at from 38 to 40 cents on the dollar, and thus dishonored the nation and blasted its credit.

THE NORTHWEST.

Western Oregon.

George Cline, of Salem, has secured the contract from the O. & C. R. R. Co. to get out 15,000 ties for the Lebanon branch.

Some Lane county farmers did not take the precaution to vitriol their wheat when they sowed it, and now the merchants reject their wheat on account of smut.

Edwin Smith, living about 7 miles from Salem, died on Sunday morning after an illness of but a few hours. He was between fifty and sixty years old and leaves a wife and three children.

The report of the resignation of President Lambert of Willamette University is for the present unfounded. He will not in any event resign until the school is thoroughly organized for the coming year.

A correspondent writing from Dexter, Lane county, says: The very wet weather we are having it is feared will be very injurious to the balance of the grain crops that are yet in the fields, also to the hops that are nearly ready to gather.

Mr. Cooper, contractor on the narrow gauge railroad, will this week locate a camp of 120 Chinamen near McAllister's mill, and start to work grading on the feeder, which extends up into the Waldo hills near Col. Geer's farm and joins the main line near the center of Howell prairie.

Statesman: On Saturday last the receipts of wheat at the Kinney mills in Salem, were 5500 bushels. The mills are running on half time, as the wheat is not dry enough for heavy grinding for foreign markets. In a week more they will turn out 500 barrels every 24 hours. The present price of wheat here is 70 cents per bushel. The price is not yet fairly settled.

The following is a summary of assessments for Polk county for 1880: Number of acres of land, 118,343; total value, $1,398,825; acres of railroad land, 6954; total value, $15,068; value of town lots, $13,725; improvements, $318,900; merchandise and implements, $206,080; money, notes, accounts, shares of stocks, etc., $77,193; cattle, 3768; value, $30,320; horses and mules, 3153; value, $157,556; total value of household furniture, carriages, watches, etc, $77,193; sheep, 17,506; value, $21,540; swine, 4154; value, $4860; gross value of property, $2,748,938; indebtedness, $807,300; exemptions, $174,530; total taxable property, $1,747,108; number of polls, 813.

Eastern Oregon.

There are a number of cases of scarlet fever in Pendleton.

The taxable property of Umatilla county for 1879 was according to official returns, valued at $1,881,628; the tax was 21 mills.

A party of excursionists from Pendleton, camped in the Blue mountains about a week, and gathered 100 bushels of huckleberries.

A. J. Bean, who resides on the Meadows, jumped from his horse last Tuesday evening, and broke his arm. He is now at the Pendleton hotel for treatment.

Washington Territory.

Over one thousand visitors have been entertained at Ilwaco and North Pacific beach this season.

An addition of sixty-five volumes has lately been made to the public school library at Goldendale.

Nelson B. Lloyd, of Pataha, fell dead from his wagon last Thursday. The cause is said to be heart disease.

Capt. Al. Harris killed five deer and four elk the past few days hunting on the peninsula below Oysterville.

W. A. Wash, H. R. Cox and Miss Ella D. Nelson have been employed as teachers at the Goldendale academy for the ensuing year.

A packing company at Olympia now puts up thirty dozen one pound cans of clams a day. The clams are mainly obtained from Mud bay.

In Clallam county, Thomas Abernethy has been nominated by the republicans for auditor, B. G. Hotchkiss for probate judge, Geo. C. Cooper for sheriff, and W. Webster, T. Knapp and S. Goodwin for commissioners.

William Thompson, for twenty years a resident of Steilacoom, and eight of that time proprietor of the Bank Exchange, has closed up his business there preparatory to leaving for New Tacoma. Workmen are busy in that town building a house for him.

The Chambers' mill property, comprising 320 acres of land, with mill, dwelling house, etc., situated thereon, was sold last week to gentlemen from California for the sum of $3500. It is the intention to establish at once an extensive furniture factory on the place.

At a sheriff's sale at Steilacoom last Thursday, 326 acres of land were sold at 10 cents per acre. The farm belonged to S. W. Hall, and the sale was made to satisfy a judgment. The price received was not sufficient to pay the costs of sale. There is understood to be a blemish in the title.

About 1060 tons of barrel material was shipped by the *Dakota* last week from the Sound: 300 tons from Tacoma and 760 tons from the Eagle mill, Seattle. This material will make 42,000 barrels. Messrs. Sohns and Roote are managers of both institutions and are thinking of moving the Puyallup factory to Seattle.

Articles of incorporation of the Puget Sound Salmon Packing Company were filed in the auditor's office on Thursday last. The incorporators are T. G. Wilson and John Leary, of Seattle, and George T. Myers, of Portland. The principal place of business will be at Mukilteo, at the mouth of Duwamish bay, opposite Seattle.

A new quartz ledge has been discovered on the south fork of the Puyallup that promises finely. Specimens have been sent to the government assay office, San Francisco, and if the outcome is as good as is expected arrastas will be put in at once. The rock contains gold, silver and copper, and it is thought the discovery will prove a veritable mine of wealth to Pierce county.

On the 23th of August the body of an old gentleman was found dead at Mr. Charles Pendleton's place on South Palouse. An investigation of the circumstances showed that he had been thrown from a horse, striking his head on the corner of a sharp stone. The name of deceased was James McMarlan, aged about 60 years. He is said to have considerable property, consisting of horses, an interest in a quartz mill, etc. He was from New York, and, it is thought, has friends there.

British Columbia.

The burnt district in Yale is being rapidly rebuilt.

Tunnel work about Yale is being pushed with vigor.

The Yale brick kiln has burned 40,000 bricks of good quality.

The vegetable crop, particularly melons, water and musk, potatoes and onions, also the orchard fruit, beats anything they have seen for the last 18 years in the vicinity of Yale.

The gunboat *Rocket*, by command of Admiral ..., proceeded on Monday evening to the assistance of the wrecked steamer *Otter*. The *Princess Louise* left Esquimalt on the same errand yesterday morning.

First Rate Advice.

The Rev. Henry Ward Beecher some time ago received a letter from a young man who recommended himself very highly as being honest, and closed with the request, "Get me an easy situation that honesty may be rewarded." To which Mr. Beecher replied: "Don't be an editor if you would be 'easy.' Do not try the law. Avoid school-keeping. Keep out of the pulpit. Let alone all ships, stores, shops and merchandise. Abhor politics. Keep away from lawyers. Don't practice medicine. Be not a farmer, nor a mechanic; neither a soldier nor a sailor. Don't study. Don't think. Don't work. None of them are easy. Oh, my honest friend, you are in a very hard world! I know of but one real 'easy' place in it. That is the grave."

DRS. HIGHWARDEN & BAGLEY, HAVING PERMANENTLY LOCATED IN SEATTLE, W. T., wish to announce that they are prepared to remove all Uterine and Abdominal Tumors WITHOUT THE USE OF THE KNIFE; and can treat and cure all female diseases by our new mode and remedies with a degree of success heretofore unknown to the profession. We are constantly treating a greater number of patients than any other office on the Pacific coast and can furnish references from well known and reliable patients whom we have treated and discharged cured, a large number of whom had been considered beyond all hope of relief with incurable disease and had been pronounced so by the best physicians of San Francisco. Special attention will also be paid to operative surgery and surgical diseases. Dr. H. Beardsley Bagley, late Professor of Principles and Practice of Surgery in Michigan Central Medical College, will respond promptly to calls in Oregon and Washington Territory. ...

PACIFIC COAST NEWS.

CALIFORNIA.

The Freedom of San Francisco Granted to Hayes.

SAN FRANCISCO, Aug. 31.—The board of supervisors have passed resolutions tendering the freedom of the city to President Hayes and appointed a committee to prepare for his reception.

The Hayes Programme.

SACRAMENTO, Aug. 31.—The citizens held a meeting to-night to arrange for the reception of President Hayes and party. It was resolved that a formal reception on behalf of the capital city take place on the 21st of Sept. and the day succeeding. A committee was named and requested to go to the state line and welcome the president.

It consists of Gov. Perkins, Senator Booth, and Mayor Turner. A committee of twenty-six was named on general arrangements, with Gov. Perkins as chairman.

It is understood here that the president passes here on the 8th of Sept., attends admission day exercises at Oakland on the 11th; departs soon thereafter by sea for Oregon; returns overland and reaches Sacramento Sept. 21st.

Assessment.

SAN FRANCISCO, Aug. 31.—Bullion assessed $1.

Denial.

Leading bankers of the city say that the report that San Francisco banking houses would join a syndicate to float the shares of DeLesseps' canal company, is without foundation and that nothing is known in banking circles of any such movement.

Demurrer Sustained in the Price-Dewey Suit.

In the suit of Rodman M. Price vs. S. P. Dewey, to recover about one million dollars, the circuit court has sustained defendant's demurrer on the ground that no new facts have been discovered since the trial of the suit in New York in 1857.

Alien Dues for the "Ho Chung" Paid Under Protest.

The *Ho Chung* entered at the custom house, paying the regular tonnage dues of 30 cents per ton and $1 per ton extra dues as an alien ship—the latter under protest. Extra duties of 10 per cent on cargo will also be paid under protest. The whole matter will come before the secretary of the treasury for final decision.

Sprague Taken to San Quentin.

SAN BUENAVENTURA, Aug. 31.—F. A. Sprague left jail here at 10:40 last night, after a compulsory residence therein of two years and a half. To avoid any possible chance for excitement, the sheriff had kept his own counsels as to his movement, and Sprague was astonished when waked up to be ironed at the above hour. Taking him in a carriage, Sheriff Delroy and Under Sheriff Easley drove over to Santa Barbara where the latter took passage with his prisoner for San Quentin.

NEVADA.

Accident to the Belcher Pump.

VIRGINIA, Aug. 31.—The Belcher pump rod having broken twice in 24 hours, the mine will be shut down till new rods can be placed in the upright shaft, which will take four weeks. Meantime Yellow Jacket will pump water from the 2828-foot level.

ACCIDENTS.

Explosion at Cleveland.

CLEVELAND, Aug. 31.—A boiler weighing 1000 pounds in the National oil works on Canal street, exploded this afternoon, and was blown 500 yards in its flight breaking two large telegraph poles and demolishing the Factory street bridge over the canal. Two men and a boy were injured, the engineer probably fatally. Cause of the explosion unknown.

Railroad Accident in Connecticut.

BRIDGEPORT, Aug. 31.—Several persons were killed by a collision on the Housatonic railroad near Parlor Rock this afternoon. Both engineers were fatally hurt. Physicians have gone to the scene.

The "Marine City" Disaster.

DETROIT, Mich., Aug. 31.—Capt. Comer, of the burned steamer *Marine City*, telegraphs that as near as he can ascertain six passengers and two of the crew were lost. The names of the last two are Richard Schultz and James Cook. The names of the missing passengers are yet unknown, except that of a man washed ashore at Sturgeon point with cuff buttons marked "Watson." There is little doubt that this is Martin Watson, a druggist of this city.

SUPREME COURT.

SALEM, Aug. 31, 1880.

Court met at 11 o'clock A. M., full bench being present.

S. P. Turner, resp., vs H. W. Corbett, app; appeal from Multnomah county; judgment of the lower court affirmed. Opinion by Watson, J.

S. P. Turner, resp., vs Henry Failing, app.; appeal from Multnomah county; judgment of the lower court affirmed. Opinion by Watson J.

E. E. McKinney, assignee of Albert Halstead, app., vs Jos. A. Baker, resp.; appeal from Marion county; judgment of the court below reversed. Opinion by Watson, J.

Smith Bros. & Co., resp., vs C. M. Rohr et al, apps; appeal from Multnomah county; judgment of the court below reversed. Opinion by Waldo, J.

M. V. Stengle et al, apps, vs J. Nevall, resp.; appeal from Umatilla county; judgment of the court below reversed. Opinion by Waldo J.

A. J. Hunter, resp., vs W. H. Gaston and G. W. Force, apps.; appeal from Linn county; judgment of the court below affirmed. Opinion by Lord, C. J.

George H Durham, resp., vs The Monumental Silver Mining Company, apps.; appeal from Multnomah county; judgment of the court below reversed. Opinion by Lord, C. J.

Ordered that the court stand adjourned until to-morrow at 11 o'clock A. M.

Prudent men don't entrust their purse to the man who tried to pick their pockets. The men who endeavored to kill the government are not the proper men to rule it.

NEWS NOTES FROM THE SOUND.

[REGULAR CORRESPONDENCE TO THE OREGONIAN]

SEATTLE Aug. 26, 1880.

Fourteen real estate transfers appear on the records for the past week.

J. C. Haines, Esq., late of Chicago has been admitted to the law firm of Struve & Leary here.

2824 tons of coal were brought in over the railroad during the past week, from New Castle and Renton.

The iron mine recently discovered on the lower Sound, it is reported, has been sold for $35,000 to San Francisco capitalists.

Twenty flat cars are being built here at the S. & W. R. R. shops for the Oregon Railway Company, to be delivered at Portland.

L. S. McLure, of this city, has been appointed, by the governor, one of the trustees of the territorial insane asylum, vice M. S. Booth, resigned.

Articles of incorporation for a street railway in this city have been filed at the auditor's office. Irving Ballard, James McNaught and W. ... Squire are the incorporators.

Mary Anna, wife of Dr. D. H. Smith, of this city, after a brief illness from brain fever, died here on Monday last. She was a sister of Mesdames Corbett and Cree, of Portland.

The work of gathering the Puget sound hop crop will commence on about the 6th proxo. The crop is much larger than last season, and it is doubtful if a sufficient force of Indians who have heretofore being employed exclusively in gathering them can be mustered now. The only alternative will be Chinamen; but the Indians and Chinese, like oil and water, "won't mix." It must either be all Chinamen or all Indians in any given neighborhood. They cannot be induced to work together, or even in the same locality.

Two hundred and thirty five excursionists, from various parts of the Sound, visited Seabeck last Saturday on the occasion of the launch of the big ship and trim little schooner just completed at that place. Seventy-five of these were from this city. A pavilion 30x80 feet in size, constructed by the mill company for the occasion and dedicated to Terpsichore, was used as a dance hall during the evening. The launch took place at 5 o'clock and was an entire success. The schooner—a craft of 300 tons burthen and constructed at a cost of $35,000—was christened *Era*. She will be commanded by Captain A. H. Paul, and employed in the Sandwich Island lumber trade. The ship christened *Olympus* constructed all told, at a cost of $80,000, is 203 feet, 3 inches in length over all; 44 feet breadth of beam and 17 feet depth of hold. She will carry 1,125,000 feet of lumber, and will run between the Sound and San Francisco. She is said to be the largest ship yet constructed on the coast, and the largest single deck ship in the world. The steam propeller building at the same place for the Mexican government, will be completed in about six weeks. She is 167 feet in length and will be put on the route between San Francisco and Mexico.

Seasonable time for imbibing choice beer and Molson's is just the kind.

WEDNESDAY MORNING SEP 1 1880

WHAT AN ISTHMIAN CANAL WOULD DO

Some days ago we sought in some remarks a solution to the query as to what would be the consequence if the price of wheat in the markets o demand should decline to a figure so low as to absolutely preclude the possibility of exporting the cereal from this coast except at an actual loss on the cost of producing and shipping Wheat growers are now brought face to face ays an exchange with a market value which is so near the cost of production that the producer who accepts present rates must work for nothing and board himself Wheat is very low abroad and quite as low here to correspond At the same time ocean freights are up vessels being firmly held at 62@65s with very few disengaged vessels available Should there be any quickening of the demand, there would be no chance to profit by it for the few ships at hand would raise their terms so as to absorb the cream of the rise Thus the wheat producers find their wheat practically locked in The *Rural Press* having pointed out the dangers which the importing merchants of this coast incurred by entering into contracts with the overland railway companies to bring all their goods by rail, shows that notwithstanding the apparent advantages the merchants gain in the quicker arrival of goods, etc, it was really a suicidal policy, because it would reduce the opportunities to ship wheat, circumscribe the prosperity of our producers and eventually ruin the trade of the merchants by whose consent the new regime in transportation was brought about It has not taken long to demonstrate the inception of the evil tendency Those who are well informed on the course of trade assure us that before the close of the year at least 30 ships will be held away from this port because they could not get merchandise for the inward voyage If this additional number of ships could be expected it would, of course, make a considerable difference in the views of owners as to acceptable rates for charters Thus it seems that our wheat growers have to thank the new contract system between the merchants and the railways for part of the lack in ships which now seems certain

Another matter is being prominently discussed in California, in the same connection, in which Oregon has an equal interest with the balance of the Pacific coast. It is the great waste of time and money caused by the necessity of carrying grain around Cape Horn to find a market While this is inevitable now, the figures which have been presented showing the immense profit which shipment by a canal across the isthmus would give over the present route around the horn have induced a feeling that is very general in favor of urging the government to take some steps to accomplish this great work Were such a canal now passable by ships at the toll of $2 per ton, which it has been estimated would pay interest on the cost of construction and for repairs, the price of wheat here would be increased at least 40 cents per cental The probable effect of shipping grain by the isthmus as compared with the carriage around the Horn was recently shown by the president of the San Francisco produce exchange Upon his showing, if the canal was now completed the saving to the farmers of the wheat growing sections of the Pacific coast this year would be over five million dollars The distance from San Francisco or Portland to Liverpool by the canal would be about the same as to Hongkong Flour is now carried from San Francisco to Hongkong by steamer at $8 per ton Suppose that we assume wheat would be carried to Liverpool at $10, including canal tolls, there would be a limit fixed to freights and the difference in our favor between $10 or £2, or as at present, over $15 or £3 paid for ships on an estimated surplus of 1,000,000 tons would be more than $5,000,000. In addition to this is the saving in risks by the long voyage around the Horn occupying an average of four or five months The average difference in values of cargoes "just shipped" and "off coast" is fully three shillings per quarter Insurance would be lessened 1½ per cent, and at least three months' interest would be saved—say 1½ per cent—in all, amounting to near $4 per ton Add to this the $5 difference in freights, and we can readily see that, with the canal completed our wheat would be worth two cents per pound to-day in this market, notwithstanding the lower prices in Europe, and in place of saving $5,000,000, would exceed $9,000,000, if our surplus should amount to $1,000,000 tons, as claimed

H. W. S.

PLAYING ON IRISH GENEROSITY

Another Irish patriot is on his way to the Pacific coast. Michael Davitt is his name, and it is announced that he comes to carry out the work of Mr. Parnell, which means that the subscription mill is again to be put in motion, and the generous Irishmen of the country, through inflammatory appeals to their sympathy and patriotism are to be bled again and mostly for the benefit, as usual of some impecunious mountebank who understands the art of phlebotomy The Irish people of this country remember the old sod and the trials and tribulations of their kindred and their hearts are readily touched by the impetuous appeals made in their behalf They go down into their pockets liberally, both for fight and famine and too often curse those who get away with the funds In the turbulent days of Fenianism, we remember how grandly the Irish people of this nation generally responded to the call for funds to aid in the liberation of down trodden Ireland from British tyranny And then it will be remembered how the funds were squandered by a lot of windy bloviators in New York styling themselves an Irish congress Bonds were issued, departments of state instituted and all the requisite machinery for a first class Irish republic set in motion Then followed a general ruction and the money was soon expended though with the exception of a farcical raid into Canada which was soon squelched, nothing was done Playing upon Irish generosity has proved a good lead and it has been industriously worked

STOPPING THE FOOLISHNESS

A dispatch a few days ago announced that a deputy United States marshal went to Covington county Alabama, to arrest men charged with beating and intimidating United States witnesses and destroying processes from the United States courts He reported that he was met by a force of between twenty five and fifty men armed with shotguns and revolvers who had assembled in the barn of a man named Fenton for whom the marshal had a warrant of arrest The mob defied the marshal and Fenton refused to submit to arrest [illegible] When we elect Hancock this [illegible] will stop. The United States [illegible] to interfere with this country [illegible] The New York *Tribune* [illegible] may seem of small import [illegible] in reality exceeding [illegible] that the spirit of rebellion [illegible] These Alabama supporters of [illegible] their affairs [illegible] witnesses tear up warrants [illegible]

The breach between Tammany, under John Kelly and the regular democracy under Tilden, in New York is by no means healed but continues to widen. While it pails the hope and depresses the courage of Hancock's supporters it gives aid and comfort to republicans throughout the country A double leaded editorial in the *Evening Express*, a democratic paper well known all over the United States under the heading Can They Defeat Hancock declares in italics concerning the democratic state committee and its work, The obvious purpose of the men who control the committee is to defeat Hancock The chairman of the committee is L B Faulkner He is a tool of Tilden whose purpose is his highest law And of his committee the *Express* says If it were under the control of men who are determined to defeat Hancock and crush the hopes of the democracy of the union it could not have served them more faithfully The treacherous old man of Greystone has blandly smiled upon the fawning candidate who has been thrust into the place he himself poured out money like water to obtain and at the same time he has drawn a sword with which to thrust him through Without the thirty five electoral votes of New York it is as impossible for Gen Hancock to be elected as for Samuel J Tilden to convince the world he is an honest man, and the *Express* declares that Tilden is plotting to give the state to Gen Garfield by forcing John Kelly into a revolt similar to that of a year ago Uncle Sammy has a great purpose to achieve befor he dies, and that is to castigate John Kelly into a fury which which will result in self destruction and revenge himself upon a party which has branded him with infamy for all time to come

Democratic papers still claim that the reported speech of Wade Hampton, was never made by him, but was concocted by the republican press for campaign purposes But the editor of the *Valley Virginian* who acted as reporter on this important occasion not only fearlessly appeals to all who heard Hampton's characteristic and foolish speech for the correctness of his report but calls attention to the following extract from the report of *The Vindicator*, the only democratic journal in Staunton which published the substance of the speech, viz

> "Pause before you cast your vote Think how Lee would have voted. Think what Jackson would have done before he would have cast a vote calculated to divide his beloved Virginia. I ask you to remember those who have died on your soil and to remember that the principles they died for are again on trial to-day I say nothing of your differences. I know there are honest men, brave men and true men on both sides, but I beg you to remember that whether you are readjusters or funders you are still Virginians. (Great cheering)"

All the festering and malignant disloyalty there was in the language of Hampton as reported by the responsible editor of the *Staunton Valley Virginian*, displays itself in the report of the democratic *Vindicator*. Between the two, and the more than suspicious tardiness of Hampton, in his denial, the "too previous" and impulsive South Carolinian is like a writhing snake in the middle of a circle of fire He has no way of escape. He has bluntly blurted out the real sentiments of the men who are the body and brains of the democratic party.

There is now in the city of Portland a man, whose life, character and acquirements demonstrate the power of the human will to overcome obstacles in the way to success While men of perhaps equal natural abilities are walking in the most obscure paths of life, having had the use of all their physical senses through life, this man has acquired a fund of information which has brought him into the notice of the great men of earth and gives him power to sway the minds of men and mould them at his will The knowledge, which is the source of his power over men, he has gathered without the aid of that most useful of all the senses, the sight of his eyes. His case is one of ten thousand, in which under similar circumstances, men have risen above such an obstacle and reached such a position in the world. It shows a will power, an energy and patient perseverance in the exercise of which success is sure There is a lesson in the life of Mr Milburn which if well studied is quite as instructive as his able lectures

A democratic exchange says Our republican friends stand just about as much show of carrying Georgia in November, as they had of carrying Alabama in August." Just about, but democrats may be reminded that republicans do not intend to bother themselves much about Georgia or any other southern state Democracy has it all its own way down there and they are as likely to profit by it as those generally do who go on fools' errands. Republicans are now more directly interested in New York and Pennsylvania

In Lowndes county, Alabama, Judge Duffield republican, got 3380 votes, actually voted for him and put into the box, each voter showing his ticket openly and open as he went to the polls The democratic vote of the county is not over 1300, and yet they returned a majority of 1500 against him It was by such frauds that the democratic majority of 75,000 was piled up The only wonder is that they did not make it 175,000

The Fenian forces in Ireland number 30,000 and in England and Scotland 11,500 The fund of the brotherhood is about £20 000 There will be a bit of scrimmage yet says the Chicago *Tribune* The American brotherhood might be lively now if all the members were not candidates for treasurer

A Bourbon organ innocently says, "when Hancock is elected the country will again enter upon an era of democratic prosperity." It appears to the reader of history who has average intelligence that the country has tired of that kind of prosperity and don't really want any more of it

The weather was so hot in Chicago that only a few of the templar's commanderies could continue in the parade to the end This will in a great measure reconcile St Louis to the census count

PUBLIC SPEAKING.

Hon J H. Mitchell will address the citizens of Southern Oregon upon the political issues of the day at the following time and places

OFFICE OF THE

PACIFIC MUTUAL

LIFE INSURANCE COMPANY

OF CALIFORNIA.

SACRAMENTO, July 1st 1880

To all Desirous of Securing the Benefits of Life Insurance:

The first consideration with applicants for life insurance is, or at least should be, SAFETY Will the Money Paid out for the Policy be Prudently Invested? Are the Affairs of the Company Honestly and Efficiently Administered? When the Policy Becomes a Claim, will it be Promptly Paid, and thus the object which induced the payment of the premiums be fully attained These are queries naturally suggested, and the character of the answers determines the course of the questioner and the selection of his Company

In this connection, the Managers of the PACIFIC MUTUAL LIFE INSURANCE COMPANY respectfully beg leave to submit the following facts and statements concerning their Company

1 Since its organization A D 1868, *it has paid 303 death losses, on policies amounting in the aggregate to $902,975*.

2 It has Paid to Policy Holders, for Matured Endowments, Dividends, and Surrender Values, in Round Numbers, $1,000,000.

3 Its losses have been paid Promptly and without Litigation. *No judgment arising from a Policy claim has ever been rendered against it and it has no suits of this character pending*

4 It has repeatedly been examined by Sworn Experts, and most thorough and searching investigations, made of its condition, and business, and IN EVERY CASE its Solvency and Trustworthiness have been Demonstrated.

5 Its Stockholders and Directors are widely known as among the most capable business men and ablest financiers of the State of California and the integrity of their management is unquestioned

6. The laws of the State including the constitutional provisions affecting corporations are of the most rigid character such as to make the Company one of the safest institutions of its kind

Section 3 of Article XII of the NEW CONSTITUTION of the State of California is as follows

Sec 3. Each stockholder of a corporation or joint stock association shall be individually and personally liable for such proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder as the amount of stock or shares owned by him bears to the whole of the subscribed capital stock or shares of the corporation or association The Directors or Trustees of corporations and joint stock associations shall be jointly and severally liable to the creditors and stockholders for all moneys embezzled or misappropriated by the officers of such corporation or joint stock association during the term of office of such Director or Trustee

7 Its policy contracts contain no restrictions upon residence or travel and its forms of insurance are unusually attractive. The Low Rate Deposit Endowment and Mutual Investment Policies are peculiar to this Company and offer advantages to the insured which are not surpassed if equaled by those of any other Company

8. When desired Policies can be registered by the Insurance Commissioners of California on the payment of a moderate fee and a policy holder in the PACIFIC MUTUAL LIFE INSURANCE COMPANY of California has then the *absolute guarantee of the State of California* that the money held by this Company against the contingency of his death is secured by bonds and mortgages deposited in the State Treasury With December 31st 1879 the Company closed its eleventh year, and in so doing affords *the only instance on record* in which a life insurance company in the eleventh year of its existence was enabled to pay its death losses from interest receipts not only was this done but in addition there was a considerable surplus remained,

Believing ourselves entitled to the confidence and business of such as propose effecting insurance upon human life, we solicit their patronage and pledge ourselves to discharge to the best of our ability the important and sacred trust devolved upon us

WEDNESDAY MORNING SEPT. 1, 1880.

WEATHER PROBABILITIES.

Washington, Sept. 1—12:30 A. M.—For the north and central Pacific coast region, clear or partly cloudy weather.

CITY.

Death of Judge Norman.—Many old Portlanders will doubtless remember Judge W. B. Norman, who was at one time engaged in business in this city. For several years Mr. Norman was proprietor of a general variety store at the corner of First and Washington streets. Judge Norman left Portland about seven years ago. As will be seen by the following dispatch, dated Stockton, California, Aug. 26th, published in one of the San Francisco exchanges, Judge Norman is dead: "Judge W. B. Norman died here at six this evening. He was a native of Mississippi, and one of the prominent democrats of the state. In 1856 he was elected state senator from Calaveras, and he was twice elected county judge of the same county. In March last he finished a four years' term as port warden at San Francisco. He was formerly receiver of the land office at Stockton."

Peter Cartwright.—The lecture by Dr. Milburn at the Taylor street M. E. church last night, on the life and services of Peter Cartwright, the Apostle of pioneer Methodism in the Mississippi valley, drew a very large and intelligent audience, and was replete with interesting points, eloquently brought out and presented. Humorous anecdotes were interspersed among thrilling passages and beautiful metaphors, all making up a lecture of an attractive and interesting character. The third and last lecture of the series will be given at the hall of the Y. M. C. A. at 8 o'clock this evening. All who have heard him in his two previous lectures here have expressed themselves as highly entertained and instructed, and all of them are likely to go again to-night. His subject this evening will be "Our Best Society."

Cleanliness of the County Jail.—A reporter of The Oregonian visited the county jail yesterday and was surprised at the cleanliness which pervades every portion of the prison. The stone walls have been neatly whitewashed, the wooden partitions painted, the floors oiled, and everything perfectly free from dirt or offensive smell. It is questionable whether a dwelling in the city is any neater kept than the jail since the advent of Sheriff Buchtel and Jailer McManus. The prisoners are required every morning to air their beds and bedding, and assist in keeping their cells clean. The kitchen and dining room are models of neatness and order, as is also the jailer's room. The officers deserve much praise for having brought about a needed sanitary improvement in the jail and that too, with a very small cost.

Arrests for August.—Following is the list of arrests made by the police during the month past: drunk and disorderly, 182; larceny, 14; assault and battery, 11; disorderly conduct, 11; using obscene and abusive language, 4; disorderly by fighting, 13; keeping gambling house, 1; gambling 2; murder, 1; defacing building, 3; injuring shade trees, 1; driving over First street bridge faster than a walk, 1; driving on sidewalk, 2; contempt of court, 9; vagrancy, 1; sleeping in barn, not his own, 1; posting bills on telegraph poles, 2; forgery, 1; violating swill ordinance, 1; obstructing sidewalk, 1; held as witness, 3; buying stolen property, 2; digging up streets, 7. Total, 280.

The Milwaukie Fire.—A correspondent writing from Milwaukie yesterday, says: "The item published in The Oregonian in reference to the fire in Mr. J. H. Lambert's timber was incorrect in some particulars: Instead of 1000 cords of wood being in the woods, not more than 600 remained out of 120 that had been cut. The fire was checked solely by Mr. Lambert and his employes by cutting through the timber ahead of the fire and back firing. Great credit is due to Messrs. Cole, Olds and Raymond, Mr. Lambert's wood hands, for their exertions through the afternoon and night, in fighting and watching the fire.

Additional Particulars.—A correspondent writing from Dexter, Lane county, sends the following additional particulars of the drowning of young Hyland: "A distressing accident happened near this place yesterday. Mr. Hyland, eldest son of A. D. Hyland, was drowned in the Willamette river. He had waded in to secure a deer that had been killed, but getting beyond his depth could not regain the shore. His body was recovered to-day. He was a young man of much promise, who had but lately attained his majority, and was the pride of doting parents. A dutiful and affectionate son."

A Dangerous Place.—There is a very dangerous hole at the corner of Sixth and Alder streets, which should be looked after at once by the proper authorities. The recent rains have washed out a hole about six feet long and several feet deep. Teams driven past there after night are liable to get into this place greatly to the danger of life or limb. It should be filled up before some accident occurs.

Arrested.—Alfred Simmons who lives near Lebanon, Linn county, was arrested Monday by Deputy Marshal Waters on a charge of selling liquor to Indians. He was brought down yesterday morning, and in the afternoon had an examination before the United States commissioner. Simmons was held to answer the charge preferred.

Sketch of Tillamook Rock.—Mr. A. Ballantyne, the surviving partner of the firm of Trewavas & Ballantyne, contractors for the masonry at Tillamook Rock lighthouse, has sent Mrs. Trewavas a neat pencil sketch, showing the present status of the work and the means by which supplies are conveyed from vessels to the rock.

Returned.—Capt. R. H. Lamson, clerk of the U. S. court, returned Monday from a month's fishing and hunting trip in the coast range of mountains. He spent most of the time near the mouth of the Nestuck river. Capt. Lamson reports having experienced a splendid time and returns in greatly improved health and spirits.

Crops in Yamhill.—From a gentleman who has just returned from an extensive tour over Yamhill county, we learn that the crop of wheat is excellent, and slightly above the average in quality and quantity. Most of the grain is housed, and little damage will result from recent rains.

Hunting Party.—Councilman R. Gardes, Paul Richter, Peter Esser, and three others, returned last evening from a twelve days' hunting trip in the Cascades. During their absence two bears and several deer were killed and 200 trout captured. A splendid time is reported.

Contracts Awarded.—The committee on streets and public property met yesterday and awarded the following contracts: To James Clark for the improvement of Sherman and Grant streets; to James Traney, Caruthers street, and to the Portland Paving Company Lincoln street.

Dates of County Fairs.—In answer to numerous inquiries concerning the dates of county fairs, we will state that the Washington fair will be held Sept. 20th to 25th inclusive; the Linn county fair, Oct. 6th to 9th inclusive; the Union county fair, Oct. 12th to 16th.

Discharged.—John Weimer, of whose arrest for embezzlement, mention has already been made, was brought yesterday before Justice Bushwiler for preliminary examination. The testimony failed to support the charge made and the defendant was discharged from custody.

G. and A. Club.—The regular meeting of the Garfield and Arthur Club at Y. M. C. A. hall was well attended, the hall being completely filled. Very interesting and able speeches were made by Judge Holmes and Mr. C. J. Curtis, which elicited much applause.

Teachers' Examination.—At the last examination of teachers held by county superintendent Macrum, there were eleven applications. Three failed, three received second class, and five first class certificates.

A Good Price.—Lot No. 1, block 198, on the southwest corner of Seventh and Hall streets, was sold yesterday at auction for $1650 cash. The sale is another confirmation of the steady rise of Portland real estate.

The Elder.—The line to Astoria, was down after 11 o'clock yesterday morning, consequently no news was heard from the Elder.

Geo. Woods and [illegible] organs in endless variety at low prices at Harris' music store.

BRUTALITY ON SHIPBOARD.

Passing down the wharves our attention was attracted by a crowd of persons standing near the German bark *Josefa*. Very soon one of the city police came on shore escorting the first officer of the vessel to answer a charge for assault and battery.

The usual preliminaries of the justice court, presided over by Justice Bushwiler, were gone through, and the testimony of several witnesses was listened to by Prosecuting Attorney Caples, and the first and second mates were fined $15 and costs each for assault and battery.

The victim of this assault is the cook. His crime, for which he was kicked in the stomach by the second mate and his face most shamefully bruised and blackened and cut, was spilling a little water on the deck, which ran out over the side where this officer and some of the crew were painting. In the midst of the melee the first officer came to adjust matters, and dealt the poor cook a cowardly blow, although he (the cook) was down and the second mate crushing him over the edge of the seat in the cook house.

The mate was quite indignant that he should be arrested for adjusting a disturbance on a German vessel of which he was first officer, and for a while declared he would not pay the light fine imposed; but as the judge commenced to write out the mittimus, he took the second thought.

From conversation with the crew it was ascertained that their treatment has been severe and tyrannical, and those who were passing the docks last Sabbath saw the sailors washing their clothes—they not having time allowed them during the week.

Cannot some better sentiment, and more humane treatment for seamen be secured? These repeated assaults and brutality on shipboard are a disgrace to our civilization.

CUPID'S CAPRICIOUS CAPERINGS.

During the month just closed thirty-two licenses have been issued from the office of the county clerk. The following are the names and ages of the contracting parties:

2. Sophia L. Hoffinber, 28; Gustave Browner, 31.
2. Inez H. Reddick, 19; Robert Uhlmann, 28.
4. Elizabeth Wieland, 19; Robert Brenke, 25.
4. Wilhelmina Melcher, 22; Ludwig Wilhelm, 35.
4. Annie R. Nolton, 33; George J. Moore, 30.
4. Clara Kate Raupach, 21; W. E. Gasch, 28.
5. Louisa Schweizer, 25; C. Durham, 30.
5. Anna Dowell, 17; John E. Miller, 24.
7. Mattie Daubenbiss, 23; W. H. Rattenbury.
10. Lena Mustard, 28; Charles Grant, 37.
10. Alice V. Crosby, 22; John Parsons, 25.
10. Melissa J. Hathaway, 23; Hiram E. Allen, 21.
11. Annie Donnelly, 19; J. H. Sherwood, 30.
13. Beulah E. Brower, 15; Wm. Hazlett, 24.
13. Helen Palmer, 33; James V. Allen, 45.
14. Sarah J. Phillips, 25; H. H. James, 26.
17. Annie Oller, 19; D. W. Forbes, 22.
17. Anna Bennett, 25; Michael Welk, 36.
17. Annie Grossenbacher, 30; John Rattner, 32.
18. Mettie L. Caples, 19; F. B. Thomo, 21.
20. Nannie Olesen, 30; David Kilman, 34.

Frank Williams, defacing a building; serving out his term.
Alex. Mathieson, held as a witness.
James Murphy, larceny; serving out his term.
Thomas Moore, larceny; serving out his term.
James Price, assault; serving out his term.

BRIEF NOTES.

No dust

Vacation over.

The steamer *Elder* is due.

Collectors are on the wing.

Public schools will open to-day.

Foliage commencing to descend.

Last lecture by Rev. W. H. Milburn to-night.

Don't begin letters with August this morning.

The solons will meet at Salem on the 13th inst.

"Our Best Society," at Y. M. C. A. Hall to night.

Now is the time to crowd forward street improvements.

The steamer *California* will sail for the north this morning.

Oak street is in a dreadfully demoralized condition at present.

It takes two to make a bargain, and one must pay for the drinks.

Many business blocks on First and Front are receiving coverings of paint.

PERSONAL.

Mr. R. N. Williams, the safe man, has gone to eastern Oregon and Washington territory on business.

Messrs. G. S. Foster and Frank W. Ingalls will go to Astoria to-day to attend the funeral of the late David Ingalls, who died at that city yesterday.

Hon. A. J. Dufur, of Dufur, Wasco county, is in East Portland, looking after the construction of his residence that is being erected on Holladays avenue. From him it is learned that the crops on the hilly land in Wasco are light, but on the creek bottoms good. He expects to remove his family to East Portland and make his home there soon.

BUSINESS NOTICES.

Nathan & Dwight will hold a sale at their rooms, corner of First and Pine streets, this (Wednesday) morning.

C. A. Malarkey is prepared to fill all orders for Oysters. He receives fresh Eastern Oysters every steamer. He supplies the trade at the lowest rates. Olympia and Shoalwater Bay Oysters constantly on hand. All orders promptly filled. Families supplied.

REAL ESTATE TRANSACTIONS.

DEEDS.

Comodore and Sol Richards to S. J. Mooney, Aug. 31, lots 6 and 7, blk 152, Couch Add—$850.

D. P. Thompson & Co. to D. R. & N. Co., Aug. 30, 1880, blks 100 and 173, Caruthers' Add—$3000.

Dundee L. I. Co. to Agnes Reid, E ½ block 149, Couch Add, city—$400.

HORTICULTURAL SOCIETY.

The regular monthly meeting of the Horticultural Society will be held at the court house on next Saturday, September 4th, at 1 P. M., to hear a report on the apple lice, and make arrangements for an exhibition of fruits at Mechanics' Fair, and other business. HENRY MILLER.

Poor Light from Gas Lamps.—Many complaints are made about the flickering, unsteady light from the gas lamps and it has been suggested that the trouble can be easily avoided by passing a piece of thin paper or fine wire through the burners.

Convicted.—Yesterday James Murphy and Thomas Moore were convicted by Justice H. W. Davis, of larceny. Each defendant was fined $25, and in default committed to the county jail.

Fresh supply of ruching and kid gloves just received, in white and light colors, 3, 5, 6 and 8 button, at P. E. Brigham's.

Gill & Co.'s show windows display immense piles of school books.

Neimeyer, the tailor, has received a new line of fall goods by the steamer *Columbia*.

Rulers and book covers free with school books bought of J. K. Gill & Co., Union blk.

Elegant dresses for $15 at Minville & Co's, 151 Third street.

Send your children for school books to J. K. Gill & Co., Union Block.

Ladies, if you wish a real nice and fine fitting shoe, ask for J. N. Smith's goods.

Fredricksburg Brewing Co., San Jose, Cal. Otto Diesing, agent, 25 Oak street, city.

Children cry for them; young ladies sigh for them; everybody likes them—Stone's candies.

For fresh and large variety of French candies at Post Office store, cor. 5th and Morrison.

50,000 sewing machine needles, all kinds, at Harbey's, the repairer, 32 Yamhill street.

The leading music house north of San Francisco—D. W. Prentice & Co., Portland.

Peter Wilhelm reigns supreme at the Gem in Astoria. Call and see him.

Hark! hark! 'tis Sozodont I cry,
Haste youths and maidens come and buy.
Come and a secret I'll unfold,
At small expense to young and old,
A charm that will on both bestow
A ruby lip, and teeth like snow.

To Cure a Cough, to relieve all irritations of the throat, to prevent hoarseness, to restore perfect soundness and health to the most delicate organization of the human frame—the Lungs—use Wistar's Balsam of Wild Cherry.

Murray & Lanman's Florida Water is one of the surest and speediest of cures for every form of nervousness. It relieves headache when other applications completely fail. It invigorates the fatigued and overtaxed body, and it imparts force and buoyancy to the mental powers.

NEWS NOTES FROM EUGENE.

[REGULAR CORRESPONDENCE OF THE OREGONIAN.]

Eugene, Aug. 31, 1880.

T. B. Dunn, Esq., has returned from San Francisco.

The late rains have somewhat interrupted harvesting operations.

Walter Gray, Esq., of Portland, has been in town the past week, visiting friends and relatives.

A lad by the name of McCrady was thrown from a horse yesterday and was severely injured. Dr. Sharples was called to render medical aid, and some fears are entertained of the boy's skull being broken.

The Hancock and English club on Saturday night last was addressed by Mr. Gearin of Multnomah county, and there was by far the largest attendance of any meeting heretofore held under the auspices of the above named club.

Mr. John R. Ellison met with a severe accident yesterday morning, which came very near being fatal. Being engaged at shingling on a building he has under construction, the foot piece gave way, precipitating him to the ground, a distance of about sixteen feet. Drs. Gill and Hicklins being called found, on examination, one arm broken in two places and a shoulder dislocated, also a severe wound in the mouth and throat caused by a pipe, which he was smoking at the time of the accident, being driven down his throat. Mr. Ellison has for many years resided in the vicinity of Oakland and Yoncalla, and had very recently moved to Eugene, and intended in a few weeks to engage in the grocery business. There are some hopes of his recovery.

The State University will commence its first term on the 13th of September, with a much larger attendance of pupils than have ever before attended this institution; the reputation of the members of the faculty as scholars of the first order, coupled with the great advantages to be derived from the use of the very costly instruments purchased for the purpose of aiding the pupils through the scientific courses, ranks this college far above any other institution of learning on the North Pacific coast and cannot fail in drawing within its portals a large number of the youth of Oregon. One of the most prominent features of the workings of the State University, is the thoroughness of its discipline in all matters pertaining to instruction, and every effort made by the faculty for the benefit of their pupils, is heartily endorsed and supported by the board of regents. Another important thing to be taken into consideration by parents who intend to send their children forth to gain an education is the moral standing of the community in which an institution of learning is located. In this respect we can truthfully say that the state of morality of the people of Eugene, is all that could be desired. There is not a town of its size in the state of Oregon, nor for that matter in the whole universe, that can give a better showing in this direction than the city of Eugene, for its citizens are unanimous in their efforts to throw around the young who sojourn among them every protection calculated to secure a high degree of morality. In proof of this assertion we need only to point to the late ordinance passed by our city council in relation to and for the government of saloons. Our city law as it now stands, imposes a very heavy fine and takes the license from any saloon keeper that would allow a university student inside of their saloons under any pretense, and we must say this law, stringent as it is, is always if occasion requires it, strictly enforced. We have only three saloons, controlled by men, who take great pains to maintain good order and uphold our city officers in the discharge of their duties, men who fully concurred in the framing of laws that are best calculated to prevent students from spending their time in such manner as to interfere with their studies. We have five churches that are well supported, a large temperance organization, medical organizations, literary clubs and societies and in fact all that could be desired to make the state of society such as a great educational center requires.

METEOROLOGICAL REPORT.

Signal service United States army. Division of telegrams and reports for the benefit of commerce and agriculture. Report for the last 24 hours.

PORTLAND, AUG. 31, 7:57 P. M.

Place of Observation	*Height of Barom*	*Change last 8 Hours.*	*Ther*	*Wind Direction*	*Rain fall inches*	*State of weath.*
Portland	30.17	03	60	NW	.00	Clear
Olympia	30.16	02	56	N	.00	Clear
Roseburg	30.15	05	63	NW	.00	Clear
Red Bluff	29.86	—02	78	N	.00	Clear
Sacramento	29.82	—09	72	SW	.00	Clear
Umatilla	30.25	12	64	SW	.13	Cld'y
Lewiston	29.86	05	64	W	.15	Fair

Note—Observations are made at Lewiston and Umatilla at 11:57 A. M.

Sohmer pianos are strictly first class instruments. Prices from $100 to $150 less than other makes. S. Harris, sole agent, Esmond block.

Don't import beer when a fine article like Molson's is to be had.

The ladies emporium and lace house, 149 Front street, opposite the Esmond.

Parties declining housekeeping, who want their household goods sold at auction or private sale, will do well to call on T. J. O'Connor, 64 First street.

Carpets.—Birmingham, corner First and Salmon, has received direct from the manufacturer the choicest designs of tapestry, ingrains, etc., which he is selling for less money than the same quality can be purchased elsewhere on the northwest coast. Furniture of every description at correspondingly low figures.

Mrs. C. K. Stevens' school will commence Wednesday, September 1st, at the academy on Seventh between Columbia and Jefferson streets.

500 Boys' School Suits, at bed-rock prices, just received at Beck & Waldman's.

For the very best photographs go to Frank G. Abell, 167 and 169 First street, Portland.

N. Y. Coffee House, 132 First St. Ladies rooms now open. Q. Voos, manager.

The boom still is the rage. Gigantic pop corn prizes in every box. Wholesale and retail depot at Post Office store.

NO NECESSITY

To go any longer without a timepiece, $14 will buy a good heavy silver watch, which is guaranteed for two years by W. FRIEDLANDER, 63 First street.

SPECIAL NOTICE.

THE ESMOND

Dining Hall will be kept open for the Accommodation of the Public during the following hours.
Breakfast—6 A. M. to 2 P. M.
Dinner—5 to 8 P. M.
J. H. BRENNER, Proprietor.

SCHEFFLER'S BRANDY.

SCHEFFLER'S ST. HELENA, EDGE HILL, VACUUM DISTILLED BRANDY BEFORE THE MEDICAL MEN.

At a council of eminent physicians of San Francisco, held in June, 1879, it was resolved that after thorough tests and analysis, Wm. Scheffler's Vacuum Distilled Grape Brandy was the purest brandy to be obtained. His process left it free from all deleterious drugs so common, especially in the imported brandies, three-fourths of which are nothing but grain whisky transformed through their formula of doctoring flavors, oil of cognac, ether and other drugs equally poisonous. Most druggists, as also the first class bars in California sell Scheffler's *Sanitary Vacuum Distilled Brandy*, as well as his Good Old Edge Hill Port, Sherry, Amber, Hock, Rissling and Claret Wines. No wines in California equal those from the Old Edge Hill Vineyards of St. Helena. GEO. H. BEACH, Agent, now here on his fall trip.

THE AMERICAN PEOPLE.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart burn, Water brash, Sick Headache, Costiveness, Palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, etc., yet since the introduction of Green's August Flower we believe there is no case of Dyspepsia that cannot be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your Druggist and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

HENRICHSEN & GREENBERG,

JEWELERS,

149 FIRST STREET,

PORTLAND, OREGON.

Oregon Railway and Navigation Co.

Office of Secretary, Portland, Aug. 2–, 1880.

At a meeting of the board of directors of the above named Company held this day, T. F. OAKES was elected Vice President of said Company, vice S. G. REED, resigned, to take effect September 1, 1880.

au30dst Attest: THEO. WYGANT, Sec'y.

FASHION NOTES.

Breakfast caps grow in favor.

All outdoor dresses are made short.

The Pilgrim suit originated in England.

Fluffy crimps and bangs are out of date.

Derbys never go entirely out of fashion.

Plaids will be revived in early fall millinery.

Pompadour silks are growing in popular favor.

Dotted and sprigged dress fabrics grow in favor.

The night gown with shirred waist is a new fancy.

Many narrow ruffles appear on early fall dresses.

The Jersey corsage has never found favor in Paris.

Beaded silk Jerseys will be worn in the early fall.

White evening bonnets will be as fashionable as ever.

Side combs of shell, jet, coral and ivory are used again.

Ostrich tips and plumes will be in high favor this fall.

It is admissible now to go anywhere with a short dress.

Plush will take the place of velvet in millinery next winter.

Many ruffles or flounces on skirts will be a feature of fall fashions.

Public taste in Paris runs to the revival of directory styles of dress.

Chinese Corah silks in flowered designs will form parts of fall toilets.

Spikes, balls and tassels are used to finish the ends of Surah sashes.

Red plaitings around and under the bottom of dresses increase in number.

Wide, canvas belts are more fashionable than either leather or ribbon ones.

Black Surah silk sashes are sometimes lined with red, or gold, or heliotrope Surah.

Gold lace, gold ribbon and gold braid will be used to excess in early fall millinery.

The fashions of England and France have very little in common at the present time.

Fancy and tinsel ribbons will be used more than Surah silk or satin for winter bonnets.

The tea gown of the moment is of soft ivory Ramchunda silk, trimmed with Languedoc lace.

The fashionable evening color takes the name of Ophelia; it is a dark shade of heliotrope.

The riding habit of the fall season has a cutaway coat basque buttoning over a striped waistcoat.

Corah washing silk in natural undyed shades of cream or ecru, is found among early fall novelties.

Indian washing silk in undyed shades of buff, resembling pongee, is sold for morning chamber robes.

Colored velvet ribbons will be extensively used for millinery. Bonnets and hats will be made of the same.

Soft, crushable India silks are much used in Paris and London in the composition of classic and artistic costumes.

American views for 75c a doz at Harris'.

W. E. GASCH, teacher of the Pianoforte, 168 West Park street.

School Books—A large overstock to close out this week, at Gill's, 93 First street.

Physicians recommend *good* beer to invalids—Molson's is a prime article.

Just finished, 50 elegant ready made suits, from $10 up, at Mrs. Pilger's, the leading suit and cloak house, 153 First near Morrison.

Cheap suits for the next thirty days at W. J. Quinn's, No. 28 Stark street.

The largest stock of school books just received by Chas. Hirstel & Co. Give them a call and you will save money.

Cable News.—You will find a fine assortment of majolica, semi-porcelain and glassware at Olds & Summers, 183 First street. They are sole agents for the celebrated Hero oil, 150 fire test.

Wonderful baby upright piano in rosewood case, 7 octave, only $250. See it at H. Sinsheimer's, agent for the Decker & Son celebrated piano, (acknowledged the best), and various organs.

MEDICAL LAKE.

Much is being said in the papers just now about Medical Lake in Washington territory, which seems to be a sort of modern Bethesda, to which the lame, the halt, and the blind move, hoping to get relief. The water of this lake, however, cannot begin to cure backache and all diseases of the kidneys and urinary organs as does the Oregon Kidney Tea. Sold everywhere.

MADAM DE SEPTE

Would respectfully inform the ladies that she has opened Dressmaking Parlors at 155 Third st., corner of Morrison (2d floor,) where she is prepared to make up LADIES' SUITS, POLONAISE, CLOAKS, DOLMANS, &c. in the very latest styles and at moderate prices. Having had a great deal of experience at Dressmaking in Berlin, from which place she has recently arrived, she will be enabled to give satisfaction on all work entrusted to her. Evening Toilets made up according to the latest Parisian and Berlin fashions.

LEGAL AND COMMERCIAL UNION MERCANTILE AGENCY.

We have used your Commercial Agency, also others, and take pleasure in saying we like yours as well as any we have tried, and think it equally as good as those which cost more money.
NORDYKE & MARMON CO., Detroit.

Your Agency is of great benefit to us in obtaining the standing of men *at the time we wish to deal with them*. We like it better than any agency we ever belonged to. W. N. FLINT & Co.,
Wholesale Granite Dealers, Monson, Mass.

Your Agency is certainly one of the best mediums for collecting in the country. We *have tried them all* and pronounce yours the best.
J. M. FAHNESTOCK & Co.,
Wholesale Soap Dealers, Pittsburg.

One of the strongest points in favor of this Agency, is, that our list of correspondents is composed of reliable lawyers *who are under a contract*. They are not a *secret list*, and our business is transacted openly and above board. We do not overestimate *a friend*, or to vent some petty malice *underestimate* others.

Thirty thousand business men use this Agency. We invite criticism and challenge comparison, and are in the field to stay.
Office, 48, Union Block.
W. H. RATTENBURY, Manager.

FINNEN'S HAVANA CIGAR STORE

First and Alder street. The largest and best selected stock of cigars in the city, comprising New York, Key West and Imported Havanas. Call and be convinced that you can get a better article for a less price than at any other store in the city. Sole Agency for the Celebrated Herbs and Breis New York Cigars.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, *free of charge*. This great remedy was discovered by a missionary in South America. Send a self addressed envelope to the Rev. Joseph T. Inman, *Station D, New York City.*

WEDNESDAY MORNING, SEPT 1, 1880

WHITE OAK TIMBER.

BY REV G H ATKINSON

This has been the choice timber for carriage manufacturers and ship builders in New England during two hundred years. Hill side and mountain and plain there well stocked with white oak were a constant source of income to their owners. It was a home business to get out staves and spokes and felloes for the shops or cut the knees or haul the logs to the saw mills on sleds in winter 40 years ago. When a boy over 50 years ago I used to wonder what shipwrights went miles away to find big oak butts and great gnarled limbs and drag them with many yokes of oxen on heavy wheels to the ship yards of New England ports Massachusetts and then wonder grew as I saw many men slowly saw or hew out huge keels and kelsons and knees and ribs and planks and spend all the spring and summer and fall in building these oak ribbed ships. The cost in time and toil and money seemed then to me very great. But it built up commerce. It conquered the seas. It carried the American flag into every port of the world. It discovered new lands. It won many a naval battle over England and many a peaceful victory over her commercial fleets. The white oak coasters early rounded the capes and laid both the Indies under tribute to Boston ship owners. One of those trading crafts had the crowning honor to be the first ship to cross the bar enter the river and mark it with the more than royal name *Columbia* which name will be forever the signal on its broad bosom.

The white oak ship paid all the cost of its long growth, and the time and toil and cash spent in its structure. It paid the owners of the forests, and the lumbermen and shipwrights and merchants and made some of them princes in wealth. It paid all the people. The cities and villages along the sea coast thrived and grew and sent their vital currents back into the interior and built more villages and settlements. It paid the nation, and gave it the white oak strength, of hard workmen skillful artizans enterprising traders and bold seamen and a body of wise and courageous navigators. These were factors of great importance in the growth and strength of the original 13 colonies. They were essential to the success of the revolution and the establishment of the United States. Our government owes its existence largely to its forests and its early fleets of white oak vessels.

Honor to those majestic old trees, whose rugged branches sheltered us in summer, and defied the tempests and the frosts of winter. Thanks for their robust grandeur marked by the rings of centuries! It was not too long to wait for them. They should be the signals of our nation's coming centennials! They should teach us to let their scions still grow and become a part of the wealth and power of our children's children.

THE WHITE OAK OF OREGON AND WASHINGTON

This is found mostly on the slopes hills and valleys west of the Cascades, though some of it is found on the eastern slopes of this range.

The grub oak hills are chiefly of this quality. This timber is known to be tough, clear, close grained, the best possible for axe helves, spokes and felloes and almost too hard for hubs. This is the oft repeated testimony of our first-class carriage and car builders. The only reason it is not sawed and used is the lack of machinery here to fit it for quick use in the shop. Tens of thousands of feet of this grown umber have been shipped to San Francisco for their manufacturing industries.

THE SAD WASTE OF THE YOUNG OAK FORESTS

Since wheat pays, the farmers all over the country have been slashing and digging out these oak grubs, as they are called. Troops of Chinamen spend the winter at this work. If the oak were thinned out, those left would soon grow and be worth ten times the value of the wheat crops less their cost. Besides wheat often gluts the market and teaches the farmers that variety and rotation of crops is the wise policy.

Western farmers destroyed their black walnut trees in order to get more wheat land, and a few of those left are worth more than the whole farm. It will be so with our white oak in a few years.

A car load of these white oak blocks came over to-day (Aug 26) from Centerville, W. T., for the shieves of the Stark street ferry company. West of Centerville and north of the Chehalis river the forests have many of these choice oak from one to three feet in diameter. Other localities have them also. Our oak and fir swamps have hundreds of these toughest of trees. Our grub-oaks cover hundreds of thousands of acres. Mr David Newsome estimates that 50,000 acres have been already cleared off and the land turned into wheat fields. Better save some of these forests for other generations.

BLACK OAK.

The Portland furniture manufacturers find this oak a strong and finely colored wood for furniture. It is somewhat brash, yet not more so than black walnut. Its place in the shop can be won by a few tests, and then its demand will creep up like that of black walnut. In a few years land owners will be sorry that they have wasted these forests of oak.

IDLE MONEY IN ENGLAND.

[From the New York Times.]

According to the English *Statist* there is a plethora of money in England. The money put away, quite idle, seeking an investment, is supposed to be something like $1,000,000,000, or nearly three years of the revenue. "Old stockings and teapots" are gorged, and will not hold an additional sovereign. The trouble with those who have the money, and who want to invest it safely, is that all the sound securities have been taken up, and can only be bought at a large advance, and 4 per cent. investments are apparently unprocurable. For the last four years there has been in England an era of retrenchment. If people could not earn money by curtailing their expenses, they seem to have made both ends meet, with a trifle over to their credit. The total accumulation made up by small amounts, is, then, enormous. During this period of saving your Englishman has been suspicious. The condition of Europe has been uncomfortable. Even now it is quite questionable whether continental matters are any more placid in character. There has been such an outcry about poor investments made in land that something has happened in England which is quite abnormal of its kind. With increased capital begging an investment, land in certain parts of England has absolutely lessened in price. In the southern and eastern counties, where there are large expanses of good agricultural land, and no great cities near them, property can be had, for ready money, at a reduction of 20 per cent. on normal prices. But matters can never remain as they are. Capital in some respects resembles water. Lock up the money or dam the waters, the result is pretty much the same, for both in time will break bounds. An era of speculation does invariably commence after a period of retrenchment. It never has been otherwise, and whether in imprudent England or imprudent America, it is always sure to happen. Because people have eaten less bought fewer clothes or books, traveled less gone less frequently to the theatre they have saved money. But the quota of bread and beef of gloves, coats and gowns, of readable volumes consumed in any ten years is about the same increased of course, by augmentation of population. The world will have its blow out after a while and makes up in the last three years of a decade for the pinchings of the first seven.

An Independent View of General Garfield's Speeches

[From the Chicago Times.]

The candor of impartial criticism compels it to be said of the fifty or sixty brief impromptu speeches which Mr Garfield has made during his journey to New York and return that in some respects they are very remarkable. Though there was a needlessly careful avoidance of any expression of opinion upon unsettled political questions it can not be said of any one of them that it was an expression of words without ideas. There has perhaps never been made in this country by any one citizen an equal number of impromptu speeches to popular greetings that were so full of ideas, clothed in language of so much force eloquence and beauty. Ordinarily the politician who is prohibited from talking politics can not talk to a popular audience at all at least can not employ words to express ideas. Some of the ablest of our presidents, under like circumstances, have given utterance only to the feeblest inanities. But in all the many responses Mr Garfield made during his journey, there is not found a single inane expression. He has shown himself a man of information and ideas upon other than political subjects who is at no loss to make appropriate use of them in a quick emergency. It is not merely in the art of off hand responses, that the public men have shown themselves his equal but [illegible] their fullness and eloquence of ideas [illegible] off hand responses rise pre-eminent over [illegible] others.

Boys Need Company

[From the Congregationalist.]

Boys must have sympathy good cheer and something to do. Youth especially needs [illegible] grasp of the hand, a sunny smile [illegible] a tender interest in the hopes and plans of untried life. Older people often grow [illegible] and shriveled of soul from the cold [illegible] ness they find in after life [illegible] especially must have the [illegible] of others [illegible] healthily grow [illegible] they need company. My boy seldom [illegible] a young mother [illegible] often full of boys who [illegible] Said a young man in one of our New England colleges. For six months I have not stepped into a house where there are ladies [illegible] and the Christian women [illegible] forgotten that the college boy needed [illegible] the tenderness which his own home had furnished.

That "Indiscreet" Speech.

[From the Baltimore Weckers German]

In his political zeal and in the sunshine of bright hopes for the future Wade Hampton of South Carolina made the mistake of his life at Staunton Va. The democrats will have to pay dear for this thoughtlessness this letting the cat out of the bag too soon on the part of one of their leaders and his excellency Wade Hampton may have spoiled his future career forever. First the democratic party destroys its household gods and nominates a union general as its standard bearer in the presidential campaign and then comes this southern hotspur and with a bounce announces to the world that the election in November will decide the principles for which Lee and Stonewall Jackson fought so heroically for four years. This means in plain and unmistakable English that what they could not attain with bullets they will have by the aid of the democratic congress and a democratic president. Heaven protect the poor United States treasury if these hungry democratic southern wolves get a fair haul at it.

NEW YORK FREIGHTS AND MARKETS

[SPECIAL TO THE OREGONIAN]

NEW YORK Aug 31 —The freight market remains quiet although there is perhaps little more doing than for some time past on some certain classes of freight. Rates are still irregular although there is an effort to advance them especially for heavy goods. The Sintram has finished loading. Her cargo comprises in part 23 bbls meal 1250 cases turpentine 190 bbls whisky, 100 bbls rosin 200 bbls oil 4539 pkgs iron 50 bxs soap 1150 bxs tin plate 50 pkgs starch 1072 bxs candles 200 bales hemp 250 bbls plaster 350 kegs nails.

The general freight agent of the Union Pacific railroad is in town it is supposed for the purpose of making a new contract with trunk lines for the ensuing year. In railroad circles it is rumored that he will not succeed unless Pacific roads agree to allow a larger percentage on through freight than heretofore. At present they do not get near as much as current rates to Chicago. A meeting of the lines will take place in a few days and there is considerable anxiety as to the result especially in view of the fact that the Atchison & Santa Fe road will be ready for business early in March and that there will be sharp competition for California freight via the Southern Pacific road. The general market is moderately active while there is an absence of speculative influences.

Breadstuffs—More active at a marked decline. Under pressure of cash stock wheat declined 1a ½c. Shippers bought more freely at the decline to fill old orders but were not inclined to anticipate wants.

Pork—Neglected.

Lard—Better demand, 10c higher.

Rio coffee—Quiet; very firm.

Refined sugars—Fair demand steady.

Hides—Active and excited half higher large sales Cala last week, to arrive have induced holders to ask higher figures. Sales 3883 Cala private.

Turpentine—Better demand ½c higher.

Petroleum—Quiet and firmer.

Sperm oil—Firmer at 92½@95c, whale also firm.

Quicksilver—Dull but steady.

Small sales of California white mustard seed are being made at 5½c.

The New York Stock Market.

NEW YORK Aug 31 —The *World* says: At the stock exchange yesterday the sales amounted to only 212 471 shares against 277 629 on Saturday but the decrease in business to day is readily accounted for by the opening of the exchange at 11 o clock as usual on Mondays, and disagreeable weather. The largest transactions were in Erie, 52,674, Del Lack and Western, 29 000. St. Paul 17 650, Hannibal & St. Joe, 11,044, and Lake Shore 10,150. Heavy dealings in Calaveras at the mining exchange to day ran the aggregate of sales up to 72,203 shares against 11,036 Saturday, but the other stocks on the list were dull. Some leading stocks were weak. The general market, however was rather more steady than it has been for the past few days and in some instances closing prices were the best of the day. Lower quotations from San Francisco have further depressed prices for Comstock shares.

NEW YORK Aug 31 —The *World* says: The aggregate of sales to-day at the mining stock exchange was larger than on any previous day during the present year amounting to 157 960 shares against 72,203 yesterday.

The London Wool Market.

[SPECIAL TO THE OREGONIAN]

LONDON Aug 8 —Wool—Sales to-day were spirited, foreign buyers taking a fair proportion. Prices are quite firm. There were 6500 bales sold chiefly Sydney and New Zealand.

Gold and Stock Company's Reports.

SAN FRANCISCO MARKETS.

SAN FRANCISCO, Aug. 31

Receipts—40 000 ctls wheat, 13,500 qr sks flour 1400 ctls oats 4500 sks potatoes 4500 doz eggs.

Charters—The previously reported Br bk Loch Fergus gets 61s 3d bk Henry Buck timber Hong kong private.

Wheat—The market can by no means be called better, as holders are stimulating trade by shading rates. In some cases the market is unfavorably affected by Liverpool advices. Sale of 100 tons of good California shipping at $1 82½ extra choice milling quotable at $1 45@1 47½.

Apples—Market is well supplied at 75c@$1.

Peaches—$1@1 50 ⅌ box.

Bartlett Pears—$1 75@2 ⅌ box.

Grapes—50c@$1 ⅌ box.

Beans—Market shows no feature of striking interest.

Hides—Dry and kip and calf firm at 19c.

Salmon—Quiet but firm.

Provisions—Firm with a fair inquiry.

Wool—Sales of Eastern Oregon private supposed rate 22@24c for medium grades.

Eggs—Steady and quiet, receipts ex State of California all sold. California choice. 30, Oregon 25a 27½c.

Butter—Market unchanged.

Catarrhal POISON

Wei De Meyer's Treatise on Catarrh, explains the following important facts:

1 That Catarrhal Colds become a poisonous infection, at first local and usually constitutional.

2 That, being [illegible] the infection is beyond the reach of mere local remedies.

3 That impurities in the nostrils are necessarily swallowed into the stomach and inhaled into the lungs thus poisoning the Digestive Respiratory and Genito urinary organs.

4 That Catarrhal virus follows the mucous membrane and causes Deafness Dyspepsia Chronic Diarrhœa Bronchitis Leucorrhœa and Consumption.

5 That Smokes Douches Inhalations and Insoluble Snuff cannot possibly remove infectious inflammation from the organs named.

6 That an antidote for Catarrh must possess an inoculative affinity for and the quality of being absorbed by the purulent mucous wherever located.

Based upon these plain theories Dr Wei De Meyer's Catarrh Cure has proved to be infallible. It not only relieves, it cures Catarrh at any stage. Home testimony:

Cured! Cured! Cured! Cured!

W H WOODS 48 Broadway, N Y cured of Chronic Catarrh

TO THE AFFLICTED.

DR ATLEN OF MADAME STEPHENS HOSPITAL City of Dublin Ireland and graduate of Trinity College same city and late of Allen Surgical Institute St. Louis Mo has arrived and, by the urgent request of many residents of Portland and vicinity has concluded to permanently locate for the practice of his profession among them. He being so well known and the wonderful cures he has already effected throughout the state causes it not to be necessary to enumerate the long list of diseases which he treats so successfully. He would state however that he cures Cancer without the knife, sight restored without instruments, in short all diseases of the eye and ear are treated by a method peculiarly his own. Persons treated for Consumption had better see the Doctor at once as nine cases out of twelve are not consumption at all and are curable. Piles Paralysis Diseases of the Spine, Liver, Heart Stomach Bowels, Kidneys and Bladder are a specialty with him. Female Irregularities Manhood Debility self abuse SYPHILIS IN ALL ITS FORMS AND HORRORS and all diseases of the urinary and generative organs cured in the shortest space of time.

The Doctor uses no mercury nor deleterious drugs in his treatment and after an examination if he finds he can benefit you he will tell you and if the contrary he will tell you also.

Examination Free.
